## Education

**ITMO University**, St. Petersburg, Russia                                        *2020-2024*
Neurotechnology and Programming
Bachelor's Degree

## Experience

**Software Developer Intern**                                                           *2020-2021*
ITMO University, St. Petersburg, Russia
- Participated in software development projects
- Collaborated with a team of developers on various projects
- Gained practical experience in programming and software engineering
- Contributed to the design and implementation of software solutions

## Skills

Programming Languages: Python, C++

Machine Learning: TensorFlow, Keras, scikit-learn

Data Visualization: Matplotlib, Seaborn

Databases: SQL (PostgreSQL), MongoDB

Frontend Technologies: HTML, CSS, JavaScript

Backend Technologies: Django, Flask, FastAPI

Databases: PostgreSQL

## Projects

**Splitbill App**
Developed a mobile application for splitting bills and expenses among friends. Implemented features for tracking bills, dividing expenses, and payment reminders.

**ManagerAI System**
Created an artificial intelligence-based system using machine learning algorithms for sales analysis and forecasting. Developed a user-friendly interface for managers to access real-time data and make data-driven decisions.

**AI Font Generator**
Built a font generator using deep learning. Trained a model to generate unique and creative fonts based on specified specifications. Developed a web interface for customization and downloading of generated fonts.

# Additional Information

Language Proficiency: English (C1)
